

VOLVO PENTA EVC SYSTEM

2.5" DISPLAY

Designed to match Volvo Penta EVC **gasoline engines**

Easy access to information

The Volvo Penta 2.5" display is designed to match EVC (Electronic Vessel Control) gasoline engines. The fact that the engine, the EVC system and the instruments have been developed together means a new level of precision, accuracy and reliability. With Volvo Penta multi information displays, like the 2.5" display, you get all the information you need in one place. The 2.5" display takes boating to an even higher level. The display show both Metric and US values.

Where ever you want

The Volvo Penta 2.5" display can be top or flush mounted. It's compact size makes it easy to fit anywhere. The display has back lit push buttons and is very easy to navigate. Just shift modes with the arrow keys and all information you need will be displayed.

What information do you need?

What software and sensors you choose to install will determine what data can be received and displayed. See features on next page.

EVC Accessories

Smart accessories that make boating simpler and more environmentally friendly. Plug-in installation of instruments, active monitoring and troubleshooting, engine data in the chart plotter and the ability to upgrade the boat's functions at a later date. It's quick and easy to install Volvo Penta EVC Accessories in a boat equipped with Volvo Penta EVC. These are some of the options available with Volvo Penta's electronic platform, EVC

World-class performance

All Volvo Penta EVC Accessories is developed, designed & serviced by Volvo Penta. This means that it's function is perfectly matched with your Volvo Penta engine. Find out more about EVC Accessories on our website.

VOLVO PENTA

- Estimated remaining distance**
- Average fuel rate
- Trip time

** Requires extra sensor

Volvo Penta EVC System

EVC – Electronic Vessel Control – is Volvo Penta's common electronic platform. Based on the same CAN-bus technology used in ships, planes and cars, EVC gives total integration. All information is distributed on one CAN-bus backbone. This radically reduces the amount of wiring and connectors required, leading to much higher reliability and easier installation.

EVC offers improved functionality as standard or option. Features that are impossible with standard systems and give you better safety, comfort and driving economy. Please contact your local Volvo Penta dealer for more information regarding Volvo Penta engines and Volvo Penta EVC system.
