

VOLVO PENTA EVC SYSTEM

JOYSTICK+ FOR ADDED FUNCTIONS

Designed to match Volvo Penta IPS-powered boats

Joystick for effortless docking and precise maneuvering

The new Joystick+ for Volvo Penta IPS offers even better ergonomics plus the possibility to control more functions, like Dynamic Positioning System, as well as being prepared for future features. Driving and docking in confined areas have never been easier. Move your boat sideways, diagonally, forward, reverse or rotate – with just one hand. Enjoy boating with precise control and increased safety.

Increased safety

With one hand controlling the joystick you can now concentrate on the situation and make a more safe and precise docking or passage. You will find out that even really large boats will be much more fun and easier to manoeuvre.

Easy to install

The joystick is easy to install – also as a retrofit – in any Volvo Penta IPS-powered boat. Splashproof design and up to four helm stations give maximum flexibility.

EVC Accessories

Smart accessories that make boating simpler and more environmentally friendly. Plug-in installation of instru-

ments, active monitoring and troubleshooting, engine data in the chart plotter and the ability to upgrade the boat's functions at a later date. It's quick and easy to install Volvo Penta EVC Accessories in a boat equipped with Volvo Penta EVC. These are some of the options available with Volvo Penta's electronic platform, EVC

World-class performance

All Volvo Penta EVC Accessories is developed, designed & serviced by Volvo Penta. This means that it's function is perfectly matched with your Volvo Penta engine. Find out more about EVC Accessories on our website.

VOLVO PENTA

JOYSTICK+ FOR VOLVO PENTA IPS

- Left lower button:
Activate or deactivate the joystick

- Push the joystick to port or starboard and your boat goes sideways.

- Right lower button:
High mode, to get more power if needed, e.g. if wind or current is strong.

Volvo Penta EVC System

EVC – Electronic Vessel Control – is Volvo Penta's common electronic platform. Based on the same CAN-bus technology used in ships, planes and cars, EVC gives total integration. All information is distributed on one CAN-bus backbone. This radically reduces the amount of wiring and connectors required, leading to much higher reliability and easier installation.

EVC offers improved functionality as standard or option. Features that are impossible with standard systems and give you better safety, comfort and driving economy. Please contact your local Volvo Penta dealer for more information regarding Volvo Penta engines and Volvo Penta EVC system.

Want to get out maximum joy and performance with your Volvo Penta Joystick+ for IPS? Combine it with Dynamic Positioning System.

Dynamic Positioning System Software
– see separate leaflet.
